

PROTECTIVE & WINTER SHIFTS **IVERNEA**

MADE-TO-MEASURE PROTECTION THAT TAKES
CARE OF YOUR SLATS AND YOUR WATER

PROTECTIVE & WINTER SHIFTS

IVERNEA PLUS, IVERNEA & IVERNEA ONE

For pools up to 10.00 x 20.00 m, fitted with submerged, above-ground or mobile shutters.
Can be installed on a new shutter or retrofitted onto an existing one.

THE + PRODUCTS

CLEANLINESS

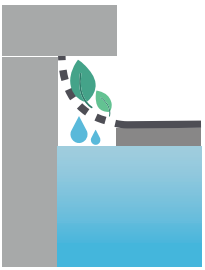

- Eliminates the need for tedious cleaning after a long period without swimming and without regular maintenance.
- Made-to-measure cover that comes up over the wall to effectively block debris and dirt and keep the water clean.

MATERIAL

- Opaque polyethylene fabric, 260 g/m², combining strength, lightness and UV resistance.

FITTINGS

- With sandow clips that attach directly and quickly to your deck once it is rolled out over the pool, no fixing to the coping is required, so your deck surround is never damaged.

PERIPHERAL GRILLE

The covers include rainwater drainage systems. On the Ivernea Plus and Ivernea models, this takes the form of a filtering peripheral grille. On the Ivernea One, discreet openings are placed around the perimeter to allow water to drain.

THINK ABOUT IT

- The NF P90-308 safety level provided by the shutter is maintained.
- The Ivernéa Plus, Ivernéa and Ivernéa One protective and winter covers are compatible with the full range of DEL slats: 69 PVC opaque slats, opaque and solar polycarbonate slats, and 84 PVC opaque slats (not compatible with PVC solar slats).

PROTECTIVE SHIFT

IVERNEA Plus

IVERNEA PLUS

YOUR SLATS PROTECTED EFFECTIVELY, ALL YEAR ROUND

USAGE

- The Ivernea Plus protective cover can be used all year round thanks to its white, heat-reflective fabric that protects the slats from the harmful effects of the sun on sunny days.

CONSTRUCTION

- White peripheral grille that filters rainwater and retains leaves and dirt from your surroundings.
- Made to measure to fit the shutter perfectly.

AVAILABLE COLOURS

Blanc (dessus) Aluminium (dessous)

WINTER SHIFT

IVERNEA grey

IVERNEA

SIMPLE & EFFECTIVE WINTER PROTECTION FOR YOUR SLATS

USAGE

- The Ivernea winter cover is intended for use **exclusively in autumn and winter**, with no risk of slat deformation.
- For protection through spring and summer as well, choose our Ivernea Plus cover.

CONSTRUCTION

- Peripheral grille that filters rainwater and retains leaves and dirt from your surroundings.
- Made to measure to fit the shutter perfectly.

2 AVAILABLE COLOURS

Beige Grey

WINTER SHIFT

IVERNEA One grey

IVERNEA ONE

SIMPLE & ECONOMICAL WINTER PROTECTION FOR YOUR SLATS

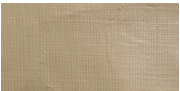

USAGE

- The Ivernea One winter cover is intended for use **exclusively in autumn and winter**, with no risk of slat deformation.
- For protection through spring and summer as well, choose our Ivernea Plus cover. For more thorough protection with a filtering peripheral grille, choose our Ivernea or Ivernea Plus covers.

CONSTRUCTION

- Discreet oval openings placed around the perimeter of the fabric, to drain rainwater without letting large debris through.
- Made to measure to fit the shutter perfectly.
