

SLATS
POLYCARBONATE SLATS

MODERNITY, RESISTANCE
AND PERFORMANCE.

SLATS

OPAQUE POLYCARBONATE SLATS

THE COMBINATION OF
MODERNITY AND RESISTANCE

THE PRODUCTS

AESTHETICS

- Flawless finish thanks to the end-cap, with no welding or burrs.
- Reduced coiling diameter on the shutter's roller tube.
- 2 colours matching contemporary settings, with accessories (straps, end-caps) matched to the slat colour.

DURABILITY

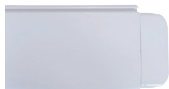

- Resistant to impact and hail.
- Resistant to high temperatures, with an anti-overheating and anti-photosynthesis effect.

Nos lames sont fabriquées à la demande selon les mesures exactes de votre piscine.

2 COLOURS TO CHOOSE FROM

The opaque polycarbonate slats comply with the NF P90-308 standard*.
The anthracite grey colour is not compatible with above-ground shutter reels (fixed or mobile).

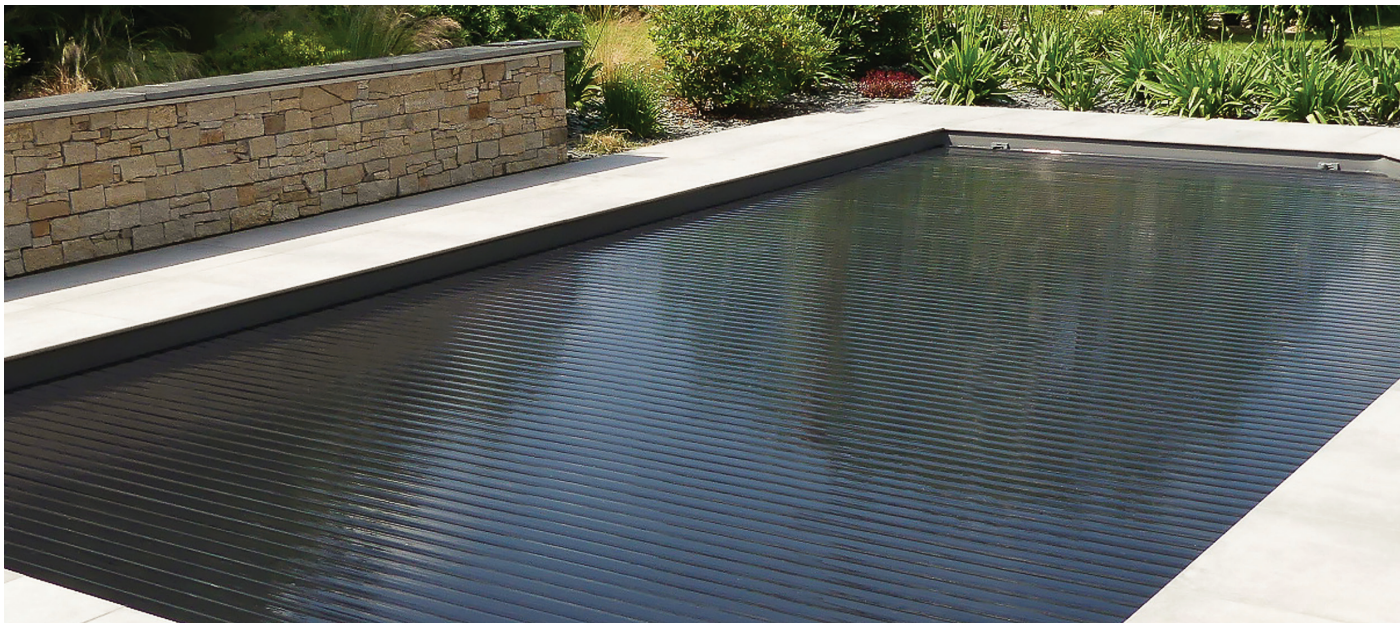

Nordic White

Anthracite Grey

* To comply with the NF P90-308 safety standard, a deck made of opaque polycarbonate slats must be at least 2.00 m wide.

SLATS

SOLAR POLYCARBONATE SLATS

THE CERTIFIED, ULTRA-RESISTANT SOLAR SLAT
THAT HEATS THE POOL WATER

THE PRODUCTS

AESTHETICS

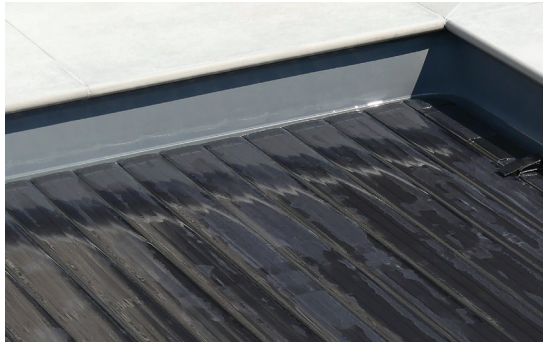

- Flawless finish thanks to the end-cap, with no welding or burrs.
- Reduced coiling diameter on the shutter's roller tube.
- Wide range of colours.

DURABILITY

- Extreme impact resistance.
- Watertightness maintained for hailstones up to 4 cm (the size of a golf ball).
- Deck functionality maintained after hailstones of 5 cm (the size of an egg).
- Anti-UV treatment for lasting functional and aesthetic durability.

WATER HEATING

- Slats act as genuine solar collectors, heating the water. A range of colours delivers different levels of solar power to the water.
- Reduced use of the heat pump.
- Insulating effect that limits heat loss.

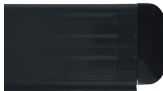

Lames sur-mesure épousant parfaitement les bords de votre piscine.

A RANGE OF 7 COLOURS

All DEL solar polycarbonate slats comply with the NF P90-308* standard and are adaptable to all types of pool shutters (submerged, above-ground and mobile).

* To comply with the NF P90-308 safety standard, a deck made of solar polycarbonate slats must be at least 2.00 m wide.

YOUR LOCKING KITS

PUSHLOCK AUTOMATIC

Practical and fully automated, this system allows the shutter to be opened and closed without any manipulation of the locking kits.

Compatible with rectangular pools from 2.00 up to 10.00 m wide, without an external staircase and with corners of up to a 25 cm radius, on a concrete edge beam. It works with DEL, Rollin and Rollenergy Évolution submerged shutters, all DEL PVC or solar/opaque polycarbonate slats, and the full range of DEL control systems: key switch, Wi-Key and LivePool Cover.
