

IN-GROUND
AUTOMATIC SLATTED COVER
ROLLENERGY EVOLUTION

THE IDEAL IN-GROUND AUTOMATIC
COVER FOR POOL RENOVATIONS.

IN-GROUND AUTOMATIC SLATTED COVER

ROLLENERGY EVOLUTION

THE PRODUCTS

ADAPTABLE

- Suitable for all types of pools under construction or renovation without altering the pool structure.

DISCREET

- The in-ground slatted cover is in a pit covered by a decking above the waterline. The motor is housed inside the roller tube.
- The colours of the cover parts can be matched together for perfect integration (beam, beam's supports, decking, slats, locking kits, separating wall).

DEL KNOW-HOW

- The Rolleenergy Evolution automatic slatted cover has been manufactured in our workshops since 2007.

SAFETY

REEL SYSTEM

MOTOR

Cover available for pools from 2.00 x 3.00 m and up to 8.00 x 15.50 m.

WHY COVER YOUR POOL?

- To reduce the water consumption by limiting the evaporation.
- To reduce the energy consumption.
- To make the cleaning easier & to reduce the use of chemical products.

YOUR LOCKING KITS

PUSHLOCK AUTOMATIC

Practical and fully automated, this system opens and closes your pool cover without any manual handling of the fastening kits. Compatible with rectangular pools from 2.00 m to 10.00 m wide, without external steps, with corner radii of up to 25 cm, and installed on a concrete coping.

It is compatible with DEL, Rollin and Rollenergy Evolution submerged pool covers, all DEL PVC or solar/opaque polycarbonate slats, as well as the full range of DEL control systems: key switch, Wi-Key and LivePool Cover.
